MANAR HAMDAN

CYBER SECURITY

Amman, Jordan | +962-780-398-696 | manarhamdan222@gmail.com | linkedin.com/in/manar-hamdan-565b5b346

SUMMARY

Cyber Security specialist with hands-on experience in penetration testing, digital forensics, network security, and IoT protocol analysis. Completed an internship at the Ministry of Digital Economy and Entrepreneurship focused on ISO 27001, and built a blockchain-based pharmaceutical supply chain tracking system.

SKILLS

Digital Forensics: FTK Imager, Autopsy, Hash Verification (MD5/SHA1), Evidence Acquisition

Network Security: Firewalls (UFW), SSH Hardening, Packet Analysis, IoT Protocols (MQTT, HTTP)

Programming: Python, HTML/CSS/JS, Git & GitHub

Standards & Compliance: ISO 27001 (Information Security Management System)

Soft Skills: Communication, Teamwork, Problem Solving, Analytical Thinking, Attention to Detail, Time Management, Adaptability

PROJECTS

PharmaChain – Pharmaceutical Supply Chain Tracking System

- Graduation project. ASP.NET Core (C#), SQL Server, HTML/CSS/JS. Tamper-evident blockchain ledger (SHA-256 hash chaining), QR code drug verification, and block explorer with live tamper demo. Team of 4, supervised by Prof. Ashraf Al-Khresheh.

Digital Forensic Investigation – Recovering Deleted Evidence from USB

- Acquired a forensic image with FTK Imager, verified integrity (MD5/SHA1), and recovered deleted artifacts with Autopsy.

Linux Web Server Deployment and Penetration Testing

- Deployed a PHP blog on Ubuntu (LAMP), hardened it (UFW, SSH), and tested with Nmap, Nikto, and Dirb, finding an exposed .git directory and directory indexing.

Performance Comparison of MQTT and HTTP for IoT Applications

- Implemented MQTT (Mosquitto) and HTTP (Flask) clients in Python and measured latency, throughput, and reliability under packet loss. Published as a research paper.

MapReduce Word Count Using Hadoop

- Distributed Word Count job with Hadoop Streaming and Python on Google Colab, visualized with matplotlib.

Spyware Analysis and Threat Research

- Analyzed spyware behavior, attack vectors, and detection and mitigation techniques.

EXPERIENCE

Information Security Intern — Ministry of Digital Economy and Entrepreneurship, Jordan (3 Months)

• Studied and applied ISO 27001 (ISMS) concepts, including security policies, risk assessment, and compliance frameworks.

Amman 42 — Cybersecurity Discovery Piscine *(In progress, ends 30 Nov 2026)*

EDUCATION

Tafila Technical University — B.Sc. in Cyber Security | 2026 | "Very Good" standing
